Although this restriction also applies to the developers in regard to any subdivision lots owned; developers, however, reserve the right to extend any existing right of way through property not a subdivision lot or where applicable, to link the roads to further subdivision development. Purchasers agree that the roads may be used for present and future construction traffic and equipment, and to provide access to any future sections, provided that such use is not prohibited by Oldham County Planning and Zoning rules, regulations, requirements or directives.

It is understood and agreed that roads were constructed by the developers and that they, their successors or assigns, are exempt from any present or future fees for use of the roads (except any applicable tax imposed by governmental authority), and shall not be restricted from the use of the roadways in any respect.

18. Dumping and Rubbish:

No lot shall be used or maintained as a dumping ground for rubbish, trash or garbage. Trash, garbage or other waste shall be kept in sanitary containers.

19. Road Maintenance Assessment:

It is anticipated that the responsibility for the maintenance of the subdivision roads will be assumed by the county upon their completion and upon the approval and acceptance by the Oldham Fiscal Court. If for any reason this responsibility is not assumed by the county or some other governmental agency, or if after assuming such responsibility, the governmental agency relinquishes such responsibility or fails to properly carry out such responsibility, developers, their successors or assigns, may assess a road maintenance fee for a sum not to exceed \$75.00 annually for each unimproved lot and \$175.00 annually for each improved lot. These charges shall be prorated to the time of purchase of said lot and/or commencement of construction. The proceeds from said annual assessment shall be applied to the repair, maintenance, safety, and beautification of the subdivision roads and road right-of-ways. Members shall abide by the Association's by-laws, rules and regulations and shall pay any fees or assessments as are established. Any existing road fund or other assessment as provided for by these Restrictions may be transferred to the Association.

Additionally, said Association may assess its own fees for those items as stated in items 20 and 21 herein to properly cover the necessary expense for same. The Association shall also allow owners of lots in Sections I and II of Briar Hill Estates and any future sections to become member of the Association and may combine their association with any association or group set up for that function. It is understood that all such assessments or fees, except as is designated strictly for the maintenance of the roads under item 19, shall be used for the landscaped entrance to the subdivision in Briar Hill Estates as well as all other right-of-ways and common areas of Briar Hill Estates, regardless of the section. Members of the Association shall have one vote per lot as shown on the recorded plat of the subdivision, provided however, that such vote is subject to any limitations and rules as established by the Association. In the event any lot may be owned by more than one person or entity, each such person or entity shall be entitled to a pro-rated fraction of the one vote to which each lot is entitled.

The object and purposes of the Association shall be to promote the general welfare and serve the common good of its members and the residents of all sections of the Briar Hill Estates Development, and may include maintenance and repair of streets, lights, watering systems, sidewalks, storm drain entrances, performance of snow removal, and the acceptance of any open space for the purposes of operation, maintenance, protection and repair.

21. Street Lighting and Other Common Facilities:

The developers shall have the right to install and otherwise make available such common facilities and services as required by any governmental agency or which they may deem reasonable and necessary for the general health, safety, welfare or convenience of the residents and owners of Briar Hill Estates, Briar Hill Estates Section III any further section of Briar Hill estates which are subsequently developed. Such common facilities shall include, but not be limited to, street lighting, entrance lighting, watering systems, street signs, flowers, shrubbery and maintenance of same. The developers, their successors or assigns, may establish such assessment as deemed

necessary to cover the maintenance and use of such facilities or items placed in Briar Hill Estates, Briar Hill Estates Section III and all further sections of Briar Hill Estates. The foregoing charges as well as any assessments listed in item 20, shall constitute a lien on each lot until paid, however, this lien shall be second and inferior to any valid first mortgage or vendor's lien against any lot, and the developers hereby subordinate same.

All assessments or fees (including those outlined in item 20 assessed by any homeowner's association) not paid when due shall bear interest at the legal rate as provided by law.
